## MEDICAL HISTORY FOR HOMOEOPATHIC TREATMENT

Directions for a written submission:

### **INTRODUCTION :**

1. For finding a correct homoeopathic remedy for your child, a lot of information with regard to the  
(I) Complaints (a) Main as well as (b) Subsidiary and  
(II) The person of the patient is required.
2. Incomplete information will make correct choice difficult. You are therefore requested to supply all information without keeping back anything as irrelevant or of little importance. The information you supply in the note forms the basis of further inquiry. Full co-operation therefore is requested. All information supplied is, of course, strictly confidential.
3. Since the inquiry can be a time consuming process and a lot of information is being collected, we require to record it systematically. To facilitate this we have evolved a special procedure in which the preliminary study is carried out by a physician specially assigned to this job and when your case record is ready we examine it for instituting treatment. Sometimes more time is required for further detailed processing of information and a study of the child's case. If so give you a further suitable appointment for finalizing the line of treatment.
